

Do you want to join an exciting venture that is shaping the future of autonomous driving? Use your expertise and know-how for solving innovative challenges in autonomous driving and driver assistance within a highly motivated team of experts.

As a **Functional Safety Engineer: Automotive** at emotion3D, you will work closely with our Machine Learning teams and use your knowledge about functional safety (e.g. ISO 26262) to ensure compliance with high-quality safety standards for our automotive software products. Your contribution will result in **high-quality Deep/Machine Learning and Computer Vision software** that addresses the challenges of complex automotive safety systems. Join our team in Vienna as:

Functional Safety Engineer: Automotive (m/f/d)

Full time, Senior Level

Your responsibilities:

- Assume responsibility for the development of safety concepts and the application of formal safety analysis methods
- Support the execution of our software products' safety lifecycle
- Prepare for and participate in functional safety audits and assessments
- Perform tool qualification and tool classification
- Contribute to the continuous improvement and tailoring of our software development processes according to functional safety standards

You should have:

- Technical education (e.g. Computer Science, Electrical Engineering or related)
- Practical experience in safety-critical software development and processes
- Knowledge of functional safety and QA standards (ISO 26262, ASPICE) and related tools
- Committed and reliable team player with an independent and precise way of working
- Good communication and moderation skills
- EU-citizenship or work permit for Austria

Our offer:

- Responsibility and individual development – play an active and central role in our team
- Exciting work environment – share our passion for innovation and cutting-edge AI technologies
- Flexible working arrangements – tailor your work according to your personal needs
- Unique team spirit – join our dedicated team of international experts and regular team activities
- Central and modern office environment – benefit from our office location in the heart of Vienna
- A competitive salary fitting your expertise and qualification (minimum salary €47.194)

You are interested? Please send us your application! We are looking forward to meeting you!
