

Do you want to join an exciting venture that is shaping the **future of mobility**? Use your expertise and know-how for solving innovative challenges in **autonomous driving and driver assistance** within a highly motivated team of experts.

As a **Data Acquisition Specialist**, you will work on multiple interesting projects and make sure that all technical challenges related to data acquisition for Machine Learning algorithm development are handled in a structured and professional way. You will work with different sensor hardware and measurement devices (e.g. motion captures) and building up reliable data acquisition workflows for measuring human body signals.

Data Acquisition Specialist (m/f/d)

Full time

Your responsibilities:

- Support data collection efforts, including setup of technical environments, hardware troubleshooting, software configurations etc.
- Perform camera calibrations and measurements
- Operate data acquisition systems and monitor data quality during operation
- Run test participants through data collection protocols
- Document data collection and test environments
- Manage data collection projects (e.g. participant recruitment, logistics, etc.)

Your qualification & skills:

- Experience and interest in an engineering discipline (electrical, systems, computer science, software, computer or related field of study)
- Hands-On mentality and strong problem-solving skills
- Experience and ability to work on a team
- Strong written and verbal communication skill
- Valid driver's license
- Knowledge of Python programming is a plus
- Computer Vision expertise is a plus
- Experience in the automotive industry is a plus
- Linux experience is a plus

Our offer:

- Exciting challenges with room for new and innovative ideas within a highly qualified team
- High responsibility and steep learning curves on challenging automotive industry projects
- Flexible working hours
- A modern office environment in a central position of Vienna as well as professional remote work options
- A market compliant salary – minimum € 42.000 p.a. - in according to your qualification and experience
