

Do you want to join an exciting venture that is shaping the **future of mobility**? Use your expertise and know-how for solving innovative challenges in **autonomous driving and driver assistance** within a highly motivated team of experts.

As an **Automotive Software Test Engineer at emotion3D**, you will be responsible for developing high-quality automotive C++ software for In-Cabin/ADAS perception applications.

Senior Automotive Software Test Engineer (m/f/d)

Full time

Your responsibilities:

- Analyze customer requirements and perform effort estimations for testing activities
- Create test scenarios for covering customer requirements and review test specification from your peer colleagues, by respecting safety standards and defined processes.
- Designing manual and automated test procedures to evaluate each software product
- Building, coding, and implementing software evaluation test programs
- Contribute to defining test strategies for assigned functionalities and implement efficiency measures in testing activities.
- Finalizing and documenting testing procedures
- Completing final tests and creating test reports
- Presenting test reports to management and suggesting software fixes

Your skills:

- Proficiency with testing and requirements tools (Vector suites, codebeamer, JIRA, Confluence)
- Experience in C++ / Python and ability to develop clean and well-documented modular code
- Experience with testing software frameworks in a highly automated environment
- More of a "practical" than "theoretical" mindset
- Experience in an agile software development environment
- Knowledge of ASPICE, ISO26262 and ISO 21434 is a plus

Your qualification:

- University degree with Engineering context preferably Computer Science or similar
- 2+ years of experience in an automotive software development environment

Our offer:

- Exciting challenges with room for new and innovative ideas within a highly qualified team
- High responsibility and steep learning curves on challenging automotive industry projects
- Flexible working hours
- A modern office environment in a central position of Vienna as well as professional remote work options
- A market compliant salary – minimum € 48.000 p.a. - in according to your qualification and experience

You are interested? Please send us your application! We are looking forward to meeting you!
